REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious the claimed method of treating alopecia in a mammal comprising administering to the mammal an insulin sensitivity increasing substance (ISIS) in an amount effective to treat the alopecia in the mammal, in a manner so as to teach an affected area of a pilosebaceous apparatus, wherein the ISIS is a biguanide having a formula $\text{NH}_2\text{C}(=\text{NH})\text{NHC}(=\text{NH})\text{NH}_2$, an alkyl or aromatic derivative thereof.

The cited prior art of record, Drug Launches teaches specific compound, chlorhexidine, possessing bisbiguanide structure employed in a composition as one of active agent, useful for hair growth stimulation and prevention of hair loss. This reference was published on June 8, 1988. However, the reference does not teach or suggest or make obvious that specific biguanide compound set forth in claims 31 and 34 is useful for the treatment of alopecia. Therefore, there is no motivation to use specific compounds set forth in claim 31 and 34 for the treatment of alopecia without specific teaching from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
